DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 19 is rejected under 35 U.S.C. 102(b) as being anticipated by Sugawara et al., U.S. Patent # 5,045,804.

Fig. 5 of Sugawara et al. discloses a circuit comprising: channel A input circuit, channel B input circuit can be read as a first circuit; dummy channel can be read as a second circuit; transistors Tr4, Tr9 can be read as performing the sensing a condition step (see spec. col. 2, lines 25-69); voltage Vz can be read as Vref, voltage Va, Vb can be read as Vin; switching control circuit can be read as performing the switching over step; the operation range when channels A, B operate can be read as first region of operation; the range of operation between the switching between channel A and channel B can be read as a second region of operation.

Allowable Subject Matter

Claims 11-18 are allowed.

Claim 20 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Application/Control Number: 10/680,566 Page 3

Art Unit: 2817

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. U.S. Patents #5,627,486, #5,841,603, #6,714,076B1,

#4,177,392 contain some limitations of the claimed invention.

Any inquiry concerning this communication or earlier communications from the

examiner should be directed to Patricia T Nguyen whose telephone number is (703)

308-1927. The examiner can normally be reached on 6:30 AM - 5:00 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's

supervisor, Robert Pascal can be reached on 703-309-4940. The fax phone number for

the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the

Patent Application Information Retrieval (PAIR) system. Status information for

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should

you have questions on access to the Private PAIR system, contact the Electronic

Business Center (EBC) at 866-217-9197 (toll-free).
